MINING, BUSINESS AND STOCKS

FALLING PRICES FEATURE TODAY

Carisa Reacts from the Mysterious Rise Noted During Yesterday's Calls.

COLORADO IS WEAKER, TOO

Some Trading Done in Unlisted Shares -Brokers' Half Holiday-Closing Quotations.

While trading was brisk on the floor of the Salt Lake Stock & Mining exchange today, there was a tendency towards lower prices. Carisa, which did some mysterious sprinting yesterday, was offered down today. It sold at the beginning at 60 cents, but sold as low as 48 cents. Colorado, influenced possibly by the filing of a suit in the federal yourt yesterday, lost ground, while Iron Blossom fell from \$1.50 to

Among the unlisteds, Ohio Copper found a buyer at \$3.02½; Bingham Standard Copper at 15 cents, and Uintah Treasure Hill at 16 cents cash and 16% cents on a buyer. Owing to the half-holiday, no call of the exchange was held this afternoon.

SOUTH IRON BLOSSOM.

Stock of This Tintic Company Listed On Exchange.

The South Iron Blossom Mining The South Iron Blossom Mining company listed its stock on the mining exchange and the treasury of the latter has thereby become enriched to the extent of \$100. The company is capitalized for 1,000,000 shares of the par value of 10 cents each. When the corporation was organized, 400,000 shares were set aside as treasury stock, 159,000 of which have been disposed of

stock, 159,000 of which have been disposed of.

The property of the company consists of four unpatented mining claims, in the Tintic district which have been developed to the extent of 259 feet of tunnels and 40 feet of winzes. Little ore has been developed and no shipments have been made. The officers signing the application are Braxton Barnett, president and George James, secretary.

NINETY-NINE COPPER.

James T. Hammond, president of the Ninty-nine Copper company oper-ating at Good Springs, Nevada, in-formed the "News" today that another car of high grade ore is being hauled down to the railroad from the mine for shipment to the Ogden smelter. Mr. Hammond says conditions at the mine are most encouraging and that regular shipments from 2 to 4 cars of ore should be made monthly, from now on.

UTAH CONSOLIDATED

Editor Walker of Boston Commercial Has High Opinion of It.

Has High Opinion of It.

After commenting to some length on the taking up of the options on the Tooele county lands by the Utah Consolidated company, George L. Walker, in the Boston Commercial, says:

"I have believed for years that the Utah Consolidated was a big mine; that its remarkable dividend record, made in the first few years of its operations, would be continued indefinitely, and that stockholders would receive back more money than the highest price ever reached by the stock. The total amount paid in by original stockholders of Utah Consolidated was \$1,500,000. This statement presumes that all the flotation stock was paid for; but I would better say that the amount which would have accrued at the subscription price for the stock was \$1,500,000, or a little less. The stock was put out at £1 per share, which would have amounted to £300,000 had there been no promotion or vendor's stock issued at a lower price, or free. With this money and subsequent earnings the company paid for its property, purchased additional claims, built a tramway and a smelter of 250 tons capacity. It twice enlarged its smelter until it had a capacity of \$00 to 900 tons daily; but the plant was finally abandoned because of litigation started by farmers, who succeeded in proving to the satisfaction of the courts that the sulphur fumes from the Utah Consolidated smelter was causing great damage to their crops.

"The predecessor of the present com-

smelter was causing great damage to their crops.

"The predecessor of the present company was organized in 1896. All of the construction work referred to has been accomplished and paid for in the 12-year period, and the compan yhas disbursed \$7.692,000, or \$25.64 per share in dividends, and has accumulated in its treasury a surplus of at least \$1.500,000, an amount equal to that paid in by stockholders at organization. Otherwise stated, the company has earned \$6 in net profits for every dollar originally paid in; and has its mine, its tramway and other equipment and its old smelter, practically all of the material of which can be used in the construction of the new plant, in reserve."

CROXALL SUES THE COLORADO

Physician Wants Big Block of Stock in Jesse Knight's Tintic Company.

JOS. L. WILSON FIGURES IN.

All About an Unpaid Doctor's Fee-Echo of An Old Controversy.

In a suit filed in the federal court yesterday, Dr. W. Y. Croxall appears as plaintiff in a suit filed against the Colorado Mining company and Jesse Knight. Dr. Croxal states in the complaint that he was owner of 10,000 plaint that he was owner of 10,000 shares of stock in the Success Mining company, which has since been absorbed by the Colorado and indicates that he has failed to receive his proportional interest in the last named corporation. The stock was placed, it is alleged, in the hands of the secretary of the company about eight years ago by Joseph L. Wison, as security for a physician's feet of \$150. The stock has greatly advanced in price since that time through the absorption of the Success company by the Colorado, and was sold some time ago by the old company to pay assessments. Croxall claims that the stock was non-assessable and that the company had no right to dipose of it.

The complaint in the case state that on Dec. 3, 1899, Joseph L. Wilson was half owner of certain mines known as the "Colorado Lode," the "Butte Mining Lode," all situated in the Tintic mining district. A short time afterward a corporation was formed and known as the Success Mining company. Wilson was taken sick soon after the company was formed and was confined in St. Mark's hospital for eight weeks. Dr. Croxall attended him during his illness and his fee amounted to \$150.

Wilson did not have any money when he left the hospital, and placed 10,000 shares of the capital stock of the company in the hands of the secretary as security for the amount due the doctor. Wilson left the state a short while afterward and in the meanwhile the stock was sold by the company to pay the assessment. Dr. Croxall is now suing for the 10,000 shares of stock, an additional 30,000 shares, which amount is alleged to be due on the increased capitalization of the company, of \$160,000, which is the alleged present value of the stock. He further asserts in his complaint that he is entitled to \$28,000 dividends, the amount of money paid on the stock during the past eight years.

A few months ago Wilson entered suit against the Colorado Mining company to recover the same 10,000 shares of stock alleging in his complaint that he had paid Dr. Croxall for his services has n shares of stock in the Success Mining company, which has since been

SMELTER FOR PARK.

Camp Paper Says Silver King Crowd May Build One.

May Build One.

Messers. Kearns and Keith of the Silver King Coalitior company have been in this city the latter part of the week, their business being, it is understood, of a mining politico nature, says the Park City Record. We suspect that the question of building a smelter in this camp is at present occupying the minds of the big promoters to some extent, and figures and samples to be used in the careful consideration of the scheme are being taken and worked upon.

the scheme are being taken and worked upon,
Henry Welsh returned Wednesday afternoon from a visit to the American Fork canyon mining district, and reports considerable activity in that section. "Uncle Jesse" Knight, who has recently became interested in the Mineral Flat mine there, has a force of men at work on the installation of a power plant, water being the motive power, and the placing of engline, compressor and machinery for the development of the property. Mr. Tyler formerly of the Wabash mine in this camp, is in charge of the mine work and Mr. Davidson, who was for some time electrician for the local light, heat, and power company, is looking after the installation of the power plant. In other properties of the district activity is being displayed and in a number of cases preparation is being made for a winter's campaign of work.

of work.

It will be a source of much satisfaction and advantage to the Daly
West people when the drain tunnel
connection has been made and no time connection has been made and no time is being lost in working to this end. The tunnel is now about 200 feet in Daly West territory with 500 feet to go and an average of over seven feet per day is being made in the work. After this, 500 feet of work has been completed a crosscut will be run to the shaft and also one in the opposite direction to the vein, the tunnel being midway between the two. Shaft connection will be made by a raise and work in the shaft and then the man; agement will be in a position to mine at depth, and results no doubt will be most gratifying. nost graffying.
Ore Shipments—Daly Judge, 987,000;
Silver King, 1,142,220; Daly West 1,150,000; total pounds, 3,279,220.

GETS INTO YERINGTON.

R. G. Wilson Pleased With Nevada

Copper Camp—Gets Foothold. R. G. Wilson returned yesterday from R. G. Wilson returned yesterday from a trip to Yerington, Nev., where he went to inspect a mining property adjacent to the possessions of the Nevada Dougias Copper company, upon which himself and associates have obtained an option and which they propose to exercise. A new company will be formed, which is to be known as the Mason-Douglas Mining company. It will be

capitalized for 500,000 shares of a par value of 10c. One-half of the stock goes for the purchase of the ground and the other half is placed in the treasury to provide working capital. Herman Barnet has been selected for the presidency. A. C. Lyon for vice president and George H. Hurst for secretary and treasurer. The other directors will be C. Jackson and F. S. Fenton.

The property has been developed to some extent by means of a tunnel in which is exposed a four foot ledge of ore that assays about \$25 a ton in gold, silver and copper. capitalized for 500,000 shares of a par silver and copper.

LEAD BELL COMPANY.

Property in Idaho Is Responding Nicely to Development.

Nicely to Development.

Vernal, Oct. 6.—Vernal stockholders in the Lead Bell Mining company will be pleased to learn that the property in Idaho is showing up fine at this time and that indications are good for a producing mine.

S. D. Colton, who went out there a few weeks ago to take charge of the property, writes of a strike just made. A two-foot vein or body of ore has been found, which appears to get larger as the work advances. When Mr. Colton reached the mine he went to work in the old shaft and had not gone down more than four feet when he thruck this ore. He hoisted 500 pounds one day and he says if it continues to look as it does now and the vein increases, as he thinks it will, he will immediately put on a large force of men.

of men.

The ore in this mine runs well up in lead and silver and if it should eventually be found in large quantities some of these Vernal people can quit work If they want to.

A FINE SPECIMEN.

Pwelve Per Cent Copper on 650-Level Of Nevada Douglas.

Of Nevada Douglas.

Last Wednesday, Superintendent S. S. Arentz, of the Nevada-Douglas properties, brought a large specimen of copper ore to the Yerington Times office. It was taken from the 650-foot level and runs about 12 per cent copper. They have encountered a large body of this ore and are, of course, duly pleased, but they have somuch good stuff blocked out that it passes almost without comment. In any other camp in the state, this strike would be called wonderful, but it is not much out of the ordinary in this great mine.

mine.

The time that these things will count heavily in our favor will be when a railroad makes it possible to begin taking out this great body of ore and converting it into something of value. And that time is not far away.

ORE AND BULLION

The ore and bullion settlements reported late yesterday by McCornick & Co. were: Crude ore and concentrate, \$30.000; base bullion, \$100,000; total,

UTAH COPPER PARTY.

Visit Garfield and Bingham and Travel on Special Train.

President Charles M. MacNeill of the Utah Copper company and party of friends who arrived in the city last evening left for Garfield early this morning on a special train over the Denver & Rio Grande railroad. The forenoon was spent in looking over the big concentrator and the afternoon was put in at the mine, General Manager D. C. Jackling acting as pilot.

The visitors will leave for Riverside, California, on the Los Angeles limited this evening where connections will be made with a Southern Pacific train for Arizena, where several days will be used up in making an inspection of the Ray copper mine. Mr. Jackling will accompany the party on the southern trip. President Charles M. MacNeill of the

trip.
The Boston News Bureau has this to say about the proposed extension of the Bingham & Garfield railroad: say about the proposed extension of the Bingham & Garfield railroad:

"Apparently the Utah Copper company will take no chances with being held up in the delivery of ore from its mine at Bingham to its Garfield mill by the lack of enterprise on the part of the Rio Grande Western, a Gould road.

"The Utah company is now asking for estimates for the construction of its own railroad from mine to mill, a distance of 19 miles, having already acquired a private right of way. This action would insure the company a regular supply of ore, for the Rio Grande Western has not an adequate equipment to meet the demands of all the mining interests in Bingham if there should be any special revival in business. The Utah Copper people do not intend to be left at the mercy of the Gould roads."

CONCENTRATES.

W. H. Clark has returned from a trip to Goldfield where he went to look after mining interests.

Ernest Bamberger, manager of the Daly West and other Park City mines, returned from the east last night.

Murray C. Godbe, who has been in Ploche looking after mining interests for a week has returned home. Owners of the Garfield mills still complain that the Denver & Rio Grande is not delivering sufficient to meet requirements.

C. M. Werk, one of the directors of the Prince Consolidated Mining com-pany, departed for his home in Cincin-nati yesterday. C. W. Stimpson of the office staff of

Pollock & Co., has returned from a trip to California. He has recuperated from an attack of typhoid fever. Walter C. Orem departed last night for the properties of the Nevada Douglas Copper company of which he is manager. He will return in about a week.

A message from the Seven Troughs district conveys the information that an important strike has been made in the Wihuja lease of the Seven Troughs Therien property.

STOCK ADVANCED THEN RETROGRADES

New York, Oct. 7.—The opening tone of the stock market was very irregular.' The trend of prices turned upward on buying by shorts in Union Pacific and Rock island and a brisk demand for the Eric and United States Steel, causing a general hardening to above the close yesterday. Rock Island preferred rallied from 49 to 49%, but met an avalanche of stock later which broke it to 47% and forced the general list into a decline. Union Pacific and Northern Pacific gave way a point below last night and some other leaders receded to the lowest. Pittsburg C. C. and St. L. preferred gained 42.

The pressure in Union Pacific, Reading and the Hill stocks was decisive on the tone of the market. Union Pacific was forced down 2, Reading 1%, Northern Pacific 1½ and Amalgamated and a number of others a point or more. Pacific Coast soid at a decline of 2%. The news from Europe was regarded as threatening.

Bonds were irregular.

Higher prices were registered, the requirements of the short interest rallying Union Pacific and Northern Pacific apoint and bringing other stocks back to yesterday's closing level. Purchases of United States Steel at an advance of 78 contributed largely to the improvement. Chicago & Alton advanced 2, and L. & N., Republic Steel preferred and Utah Copper 1.

The demand persisted until the list was on a parity with yesterday's closing, after which buying slackened, but there were no symptoms of weakness. Pullman advanced 2½ in United States Steel was the feature of the last hour. Some of the other iron and steel stocks rose in sympathy. There was a gain also in the southern railway group. The rest of the list did not respond vigorously to this restricted movement and sold off again later. New York, Oct. 7 .- The opening tone of the stock market was very irregular.

LIVESTOCK.

WOOL.

St. Louis, Oct. 7.—Wool, steady. Territory and western mediums, 17@18; fine mediums, 15@17; fine, 12@14. BOSTON.

BOSTON.

Boston, Oct. 6.—The situation in the local wool market is better than for many months. Large contracts have been closed, shipments are heavy and prices, although firm, show no hardening tendency, Quotations:
California—Northern, 42@42: middle county, 38@46; southern, 37@35; fall free, 35@37.
Oregon—Eastern No. 1 staple, 57@58; eastern No. 1 clothing, 47@50; valley No. 1, 45@46.
Territory—Fine staple, 57@58; fine mediums, staple, 55@56; fine clothing, 45@50; fine medium clothing, 45@46; half-blood, 50@55; three-eights-blood, 48@50; quarter-blood, 43@405.
Pulled—Extra, 55@57; fine, 55@52; Asupers, 42@45.

LONDON.

LONDON. LONDON,

London, Oct. 6.—A good selection, consisting of 14,045 bales, caused keen competition at the wool sales today. Prices were firm. A large supply of merinos sold readily to home spinners, and scoured were in demand for France. Halfbred clips and corase crossbreds were taken freely by the home trade. Americans bought super greasy halfbred combing and light greasy crossbreds.

PRODUCE.

CHICAGO. Chicago. Oct. 7.—Wheat opened easy at declines of 1/8 to 1/8, but soon regained all of the initial losses on brisk buying

by commission houses. The weakness at the start was due to lower prices for wheat at many of the European grain centers, and to continued liberal receipts in the northwest. December opened at 98 to 381% and advanced to 38 meents. Minneapolis, Duluth and Chicago reported 1,144 cars.

Buying by leading bulls caused strength in the corn market, following moderate weakness at the start due to general selling brought out by favorable weather for the maturing of the new crop. The December delivery, which was in greatest demand, advanced to 64%, after opening off a shade to 160%, after opening off a shade to 160% cents at 61% to 64%.

Oats were steady on buying by shorts and pit traders based on the irmness of wheat and corn. December opened 1% 60% lower at 48% and sold at 48%.

Provisions were firm in sympathy with the strength of grain. Prices at the opening were 7% lower to 5c. higher.

The wheat market gained additional strength during the last part of the day because of a report that centern millers were active buyers of cash wheat here. The high point for December was reported at 93%. The close was strong with December 7% 61 higher at 39%.

The corn market continued firm the balance of the day, closing at gains of balance of the day, closing at gains of 1/8 to 1/4, with December at 64/2; @65/4. Close—Wheat—Dec., 99/4; May, 1.02/8; July, 96. Corn—Oct., 74; Dec., 64/2; @61%; May, 63%. Oats.-Dec., 49%; May, 51% @51%; July,

Oats.—Dec., 49½; May, 51½ @ 51½; Jan, 46½ @ 46%.
Pork—Oet., 13.80; Dec., 14.02½; Jan., 15.95; May, 15.80.
Lard—Oet., 9.92½; Nov. and Jan., 9.95; May, 9.50.
Ribs—Oct., 9.20; Jan. 8.46; May, 8.50@ 8.52½.
Rye—Cash, 75½; Dec., 77; May, 81.
Barley—Cash, 55½ @ 61.
Timothy—Oct., 3.50.
Clover—Oct., 9.00.
EVAPORATED FRUITS.
New York, Oct. 6.—No important

Clover—Oct., 9.00.

EVAPORATED FRUITS.

New York, Oct. 6.—No important business is reported in the market for evaporated apples, which ruled steady. Early new crop in case, 5% @6; choice to fancy fruit, 1907, is quoted at 7@9; low grades, 4½ @6.

There has been a rather more active demand for Oregon prunes recently, but California fruit remains dull. Quotations range from 4 to 13 for California, and from 6¼ to 7½ for Oregon.

Apricots are quiet, with choice quoted at 8¼ @8½; extra choice, 8% @9; fancy, 10@10½.

Peaches are dull, with choice quoted at 7@7¼; extra choice, 7% @8; and fancy, 8½ @9.

It is said that raisins are being offered on a lower basis from the coast, but the local market holds pretty steady. Loose muscatel are quoted at 4¼ @6¼; choice to faucy seeded, 6½ @1¾; seedless, 4% @6; and London layers, 1.60@1.65.

SUGAR AND COFFEE.

New York Oct. 7.—Sugar, raw, quiet.

SUGAR AND COFFEE, New York, Oct. 7.—Sugar, raw, quiet. Fair refining, 3.43@3.48; centrifugal, .96 est, 3.53@3.58; molasses sugar, 3.18@ .23. Refined—Easy, Crushed, 5.70; powder-d, 5.10; granulated, 5.00. Coffee—Steady, No. 7 Rio, 6¼; No. 4

Santos, 8%.
BUTTER AND EGGS.
Chicago, Oct. 7.—Butter — Stea
Croameries, 25@27½; dairles, 20½@24.
Eggs—Steady, 20.

SUGAR REDUCED. New York, Oct. 7.—All grades of refined sugar were reduced 20 cents a hundred pounds today.

MILFORD OFFICER SHOOTS.

Miner from Delamar Badly Wounded Mistaken for Bad Man.

A miner named M. Hildebrand who had been working in the Delamar,

Nev., mines, was beating his way to Salt Lake City, 10 days ago, in a box car, and got out of the box car at Mil-ford. Town Marshal Hedge saw Hilde-

ford. Town Marshal Hedge saw Hildebrand, and called on him to stop. The miner thought it was a hold-up, as he had \$40 in his pocket, and failed to obey the command. Then the marshal shot Hildebrand through the groin, the bullet coming out by the spine. The wounded man was carried to the nearest house, and partially cared for. The officer explained that

to the nearest house, and partially cared for. The officer explained that he had been warned to look out for. California thieves and mistook Hildebrand for one of them. After some further slight attention, the sufferer, was advised to get out of town, which he did, coming to Salt Lake. He applied this noon, to the police station for assistance, but the city medical authorities with customary indifferent careful statements.

authorities, with customary indifference, advised Hildebrand to go across the street to the Volunteers' dispensary. This he did, and the surgeons there are treating Hildebrand.
